

## DC SHUTTER MOTOR

## CRAB

### Product Features

- It Can operated normally when power failure manual Control, remote control and anti-theft functions
- Three-in-one controller, compact structure, simple and beautiful appearance
- Use 24V safe voltage, will not cause accidents
- Motor is stable, Not easy to heat, Low vibration and noise
- Most of the control circuit is located in the electronic control box , host leaving only the power cord, low failure rate.
- Low requirement for the input voltage, can be work in unstable or low voltage area.

### Main Technical Parameters
