

METEL RACK FOR GATE OPENER

01

SELECT MATERIALS STRICTLY

High strength
High stress and high reliability

03

Smooth operation

It runs smoothly without deviation and has good comprehensive mechanical properties

02

Accurate size

Support customization
Compact structure, long service life

04

Quenching process

High frequency quenching of tooth surface
High strength and good wear resistance

Each 1 piece 1 meter

Length: 1005mm

With: 30mm

Thickness: 8mm/10mm/12mm
